ABOUT ME

Who I Am

Hello! I'm **Pushkar V H**, a passionate and driven B.Tech student specializing in Artificial Intelligence & Data Science at Reva University, Bengaluru.

Currently in my 2nd semester, I'm building a strong foundation in AI, data science, and core engineering principles. I enjoy working on hands-on projects — from blockchain platforms to graphics programming — and I'm always eager to learn new technologies and sharpen my skills.

I believe in the power of technology to solve real-world problems and I'm constantly exploring new ways to merge creativity with code.

EDUCATION

Academic Background

B.Tech — AI & Data Science

Reva University, Bengaluru

Currently in 2nd Semester, building a strong foundation in artificial intelligence, data science, and core engineering principles.

Pre-University Course (PUC)

Completed with Science Focus

Completed PUC with a strong focus on science and mathematics, laying a solid groundwork for a career in technology and engineering.

SKILLS

What I Work With

Python

C

C++

DSA

DevOps

Data Science

STRENGTHS

My Core Strengths

**Communication**

Clear and effective communicator,
able to present ideas and

**Teamwork**

Collaborative team player who
thrives in group settings and values

collaborate seamlessly with teams.

diverse perspectives.

Problem Solving

Analytical thinker who enjoys breaking down complex problems into elegant solutions.

Quick Learner

Rapidly adapts to new technologies and methodologies, always eager to expand knowledge.

PROJECTS

Things I've Built

2D Graphics Editor

A menu-driven graphics editor built in C, allowing users to draw, transform, and manipulate 2D shapes through an interactive command-line menu system.

C

Graphics

CLI

UniToken Platform

A blockchain-based campus token platform enabling students to earn, trade, and redeem tokens within the university ecosystem using smart contracts.

Blockchain

Web3

JavaScript

ACHIEVEMENTS

Certifications & Achievements

**IBM SkillsBuild Certification**

Completed an IBM-certified online course building foundational technology and professional skills.

**Wadhvani Foundation Certification**

Certified by the Wadhvani Foundation for entrepreneurship and skill-development training programs.

**DSA Certification**

Completed certification in Data Structures & Algorithms, strengthening core problem-solving abilities.

**DevOps Certification**

Earned certification in DevOps practices covering CI/CD, containerization, and deployment pipelines.

**UniToken Project**

Built and deployed a blockchain-based campus token ecosystem as part of a real-world Web3 project.
